"ULTRA-RTC" RADIOGRAPHIC SYSTEM

ULTRA Systems

NCD is now offering a new line of high performance, heavy duty radiographic systems. The new "Ultra" systems bring together the highest quality components available to produce a system comparable to or exceeding those produced by major manufacturers.

We are using world renowned Pausch high end tables, tube supports and wall buckys in conjunction with CPI generators, Varian X-Ray tubes and Eureka Linear IV digital collimators. These manufacturers are the best in the business and we have integrated their products to produce high quality systems at very competitive prices.

If your future may include digital output, PACS, or simply upgrading, you should consider a high performance system and the "Ultra" is just that.

ULTRA Models:	RTI-50	RTI-80	RTC-50	RTC-80
Generator:	50kW	80kW	50kW	80kW
Tube Support:	Integrated	Integrated	Ceiling	Ceiling
Table & Wall Bucky:	Elevating/Floating	Elevating/Floating	Elevating/Floating	Elevating/Floating
